commented on [JNMA-2459 - GPP Portal - Provider Portal - Create Account - The values in Step 1 and Step 2 not being cleared when user returns from error page](#)

Hello [Asal Zarepakziabari](#) ,

If we select the same provider type after getting the error response from step3, data on step 2 is not getting cleared. Please fix this as well.

Hi All,

Verified issue:

- Sorting works only on the Name column, it is not functional on the MSI Provider # column
- Not all links are functional (the provider link is not functional). also, The page description is missing.
